Understanding RSA Level 3

Maryland's RSA Level 3 is the **highest tier** of Residential Service Agency licensure, RN-supervised by the Dept. of Health. It allows our team to care for residents with complex needs — not just basic daily assistance. For families, this often means *fewer transitions*: your loved one can remain at Goddard as needs evolve, rather than relocating to a higher-acuity facility.

STATE INSPECTED & COMPLIANT

Regularly inspected by Maryland OHCQ to meet or exceed state standards for quality and resident care.

“Residents are known, not just monitored. With seven residents under one roof, caregivers learn each person’s routines, preferences, and personality — building the consistency and trust that is difficult to replicate anywhere else.”
